ABOUT

John Griber has lived in Jackson, Wyoming for over 30 years. Living within view of the Teton's has fueled John's passion for adventure and exploration. He has taken this passion to explore some of the greatest ranges in the World as a sponsored athlete and snowboard mountaineer for the North Face.

Transitioning this knowledge of athlete to cameraman and realizing what is required from both sides of the lens is an invaluable asset. Having this versatility and strength required to be safe in the mountains all the while capturing the adventure is a rare combination few can claim.

John has filmed from the summit of Mt Everest twice and has a Sports Emmy Award.

PRODUCTION

"Expedition Impossible," ABC / Mark Burnett Productions - Camera Operator
Filmed on location in Morocco, March - April 2011 the next evolution in high adventure and human drama. The series will feature teams of ordinary people doing the extraordinary as they compete in the biggest adventure of their lives.

"Man Woman Wild" Season 2 - Discovery Channel - Camera Operator
Current ongoing project

"Dual Survival" -Discovery Channel - Camera Operator
January 2011, Wyoming episode
Survival experts Cody Lundin and Dave Canterbury are back again taking on some of the

planet's most unforgiving terrain to demonstrate, in their own way, how the right skills and some creative thinking can keep you alive.

“Man Woman Wild” – Discovery Channel - Camera Operator.

A nine episode TV series shot globally from January to June 2010.

Mykel Hawke is a former Special Forces survival expert. His wife, Ruth England, is a TV journalist. Together, they take on some of the most forbidding and remote locations in the world. Dropped into each spot with only a knife and the clothes on their backs, they must survive as a team for four days and nights.

Arctic Refuge Ski Traverse– Camera Operator – May 2010

Video collateral for The North Face global marketing and web usage

A 16 day ski traverse through the Brooks range in Northern Alaska. A very challenging undertaking alone which I filmed using the Canon 7D and charged batteries exclusively through solar panels.

Ascent of Mt. Everest for Eddie Bauer – Camera Operator

A 70 day expedition from March to June 2009. Filming Eddie Bauer athletes during the launch of EB's new product line First Ascent. Summit May 19th.

“Out of the Wild” Discovery Channel - Assistant Camera

A nine episode TV series filmed in the fall of 2008 in the wilds of Alaska.

Gasherbrum II (8035m), Pakistan - Camera Operator -

Video collateral for The North Face global marketing and web usage. 2008, Our goal was to attempt a ski descent of this peak. In addition to shooting I was editing short video's of our expedition in base camp (16,700 ft) then sending to North Face website via satellite links.

Zanskar Ice Trek, India - Camera Operator, 2007

Video collateral for The North Face global marketing and web usage. Following and filming North Face athletes during a winter trek of the frozen Zanskar River in Northern India

Ascent of Mt. Everest for feature film “BACK FROM THE EDGE” - DP/ Camera Operator, 2007

Sole cameraman following Werner Berger, age 69, oldest person to summit Everest from North America, to be released spring 2011. Summit May 22nd

“Fly Fishing America” Barrett Productions - Camera Operator, 2006

Filming fly fishing on the rivers of Montana for this TV series.

“The Endless Knot ” –Serac Adventure Films / Rush HD – Camera Operator, 2006

An Award winning documentary based on the tragedy of Alex Lowe and the creation of the Khumbu Climbing School which teaches Sherpa's safe climbing techniques. Filmed

in Nepal.
